## Long Island Cabbage, American Cauliflower

AND

### Other Choice Specialties In Vegetable Seeds

OFFERED BY

FRANCIS BRILL

Hempstead, Long Island, N. Y.

Pioneer of the CABBAGE SEED industry of LONG ISLAND, and the only one engaged therein having a practical knowledge of, and a life long experience in SEED GROWING. Business established by my father the late John Brill, at Jersey City, N. J., 1828. At Newark, N. J., 1850. There succeeded by the present proprietor 1859. Removed to Long Island 1870, and since operating with a line of seed stocks used and perfected by my father, my uncle and other MARKET GARDENERS, adding new varieties and strains of merit as they have appeared. I was the first, and for many years the only seedsman to champion and encourage growing AMERICAN CAULIFLOWER SEED, which has become an established fact, equaling the finest and most expensive imported seed, far superior to the ordinary foreign product, and can be sold much cheaper.

### CABBAGE—Strictly Long Island Grown

Leading sorts in heavy face type

Per Pound      10 lbs. or over  
Delivered
